

1 ABSTRACT

2 A pedicure spa chair base for use with any seat, which chair base has a basin having
3 a raised area and a lowered area therein, the raised area having a pair of mirror image footrest
4 sections separated by a part of the lowered section which part has the drain for the basin
5 therein. The lowered area of the basin has a horizontally disposed water jet forwardly of
6 each footrest. Each footrest also includes a forwardly disposed extension, adjacent each
7 respective water jet. Other conventional components including a seat mount are found on the
8 chair base.
